

SS-SR

Product Description

SS-SR is a liquid solvent based cleaner for removing silicone without breaking a sweat. Just soak the substrate in the liquid, and the silicone wipes right off. Product works best if items are physically immersed in the liquid and allowed to soak.

Product Features

- Fast removal of cured silicone
- Low odor formula
- Ready to clean right out of the container

Typical Applications

- Substrate silicone removal
- Cleaning old parts
- Prepping for reapplication

Instructions

Pour into a container and immerse the substrate in the liquid. Let sit for approximately 24 hours for best results. Remove as much material ahead of time for best results. It will remove thick beads, but may take longer.

Silicone Remover

Typical Properties

ColorBrownViscosity, cps1Specific Gravity0.82ConsistencyLiquid

Handling and Safety

For maximum shelf life, keep containers sealed when not in use. Keep out of the reach of children. Uncured sealant irritates eyes and skin. Refer to the SDS.

Shelf Life

Sealed containers are guaranteed for 12 months from the ship date when stored in a cool dry area below 70°F and above 32°F.

Limited Warranty

All recommendations, statements and technical data herein are based on tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as warranty, either expressed or applied. User shall rely on his/her own information and tests to determine suitability of the product for the intended use, and the user assumes all risk and liability resulting from the use of this product. Manufacturer's sole responsibility shall be to replace that portion of product that the manufacturer proves to be defective. Manufacturer shall not be liable to the buyer or any third party for injury, loss or damage directly or indrectly resulting from the use of, or inability to use, the product. Recommendations or statements other than those contained in a written agreement signed by an officer of the manufacturer shall not be binding by the manufacturer.

This product has not been tested for, and is therefore not recommended for, uses for which prolonged contact with mucous membranes, abraded skin, or blood is intended; or for uses which implantation within the human body is intended.
